## DRYING TABLES & HUSKERS GRANT \$3,000

### *Guatemala -- Chimaltenango Region*

In the region of Chimaltenango, Guatemala the women farmers have been working successfully to increase the yields of their coffee production and with this they hope to increase the income for their families. Working with an NGO, they are making their land more productive. What they need now are manual huskers and drying screens in order to move forward with their plans to become more self sustainable farmers.
